

Eagle II Radar Series

Traffic Safety Radar

The Eagle II series is sure to fit your department's needs with its flexible design and classic user interface.

Outstanding Performance

- Shielding and antenna design allows for more reliable operation in high-interference environments
- Displays fastest target quicker than leading competitor
- Shadowing and combining nearly eliminated with VSS input
- Operator can monitor not only strongest signal but also the fastest target speed allowing for improved vehicle identification

Patented Innovations

- Fastest technology
- TruTrak®'s VSS interface allows automatic mode switching between moving and stationary modes
- Smart Patrol Search rejects inaccurate patrol speeds when VSS not installed

Ka-Band antenna

Wired or wireless remote

Highly Configurable

- Single or dual Ka antennas
- Separable display for flexible mounting
- 3 models to meet your needs: Eagle II, Golden Eagle II and Directional Golden Eagle
- Stopwatch, fastest vehicle and same direction mode capability (GEII, DGEII)
- Digital Signal Processing (DSP) for tracking multiple targets, greater accuracy and range sensitivity
- NHTSA conforming product list

Confident tracking history

Eagle II Radar Series

Traffic Safety Radar

Configuration Includes

- Choice of display mounts
- Choice of antenna mounts
- Choice of antenna cable lengths
- Wired or wireless remote
- Tuning forks
- Operator Manual

Options

- Display separation kit
- In-car video interface
- Sun shield
- Hard carry case

Waterproof antennas, window mount

Flexible operation

Optional suction mount

Patented Features

- The Eagle was the first radar with fastest technology. Our patented method displays an accurate fastest target quicker than other RADAR.
- TruTrak™ VSS interface enables automated switching between moving and stationary modes and virtually eliminates common radar errors like shadowing and combining.
- Smart Patrol Search operates when the speedometer input is not connected to reduce shadowing, and combining.
